## **COFACE SA: Publication of SFCR Group and Standalone as of 31<sup>st</sup> December 2019**

COFACE SA has published today its Solvency and Financial Condition Report (SFCR) for COFACE SA (Group) and *Compagnie française d'assurance pour le commerce extérieur* (the « *Compagnie* »), in compliance with the Solvency II requirements<sup>1</sup>.

The Board of Directors of COFACE SA and the *Compagnie*, respectively approved the SFCR for the financial year 2019. This report is produced on an annual basis:

- for Coface Group, involving COFACE SA and its main subsidiaries in France and outside France;
- for the *Compagnie*, on a standalone basis.

### **HIGHLIGHTS**

- To assess its solvency, COFACE SA uses the partial internal model approved by the ACPR in 2019. The Company's solvency is still assessed using the interpretation of the standard formula recommended by the Regulator.
- As of 31<sup>st</sup> December 2019, eligible own funds to cover the Group's SCR amounted to €2,347 million, which broke down as follows:
  - 81% of Tier 1 capital;
  - 18% of Tier 2 capital, corresponding to the subordinated debt eligible thanks to transitional measures;
  - 1% of Tier 3 capital, representing deferred tax assets.
- The Group's SCR coverage ratio of 203%<sup>2</sup> at the end of 2019 reflects a solvency ratio above its target range (155% -175%). This level benefits from the decision taken by the Board of Directors of COFACE SA to propose at the Group's General Meeting to pay no dividends for the 2019 financial year.
- The coverage ratio of the *Compagnie* SCR (Solo) at the end of 2019 is 288%<sup>3</sup>.

<sup>1</sup> The Solvency II Directive (i) formalises and organises information requests, and (ii) clarifies the governance requirements and processes to be followed by insurers. In particular, the regulations provide for the establishment of two narrative reports: one for the Regulator (RSR) and one for the public (SFCR).

<sup>2</sup> Final calculation of the SCR coverage ratio using the partial group internal model. Non audited.

<sup>3</sup> Final calculation of the SCR coverage ratio according to Coface's interpretation of Solvency II standard formula. Non audited.
